Abstract
Abstract should be 150-300 words.

Keywords: Keyword 1, Keyword 2, …, Keyword 8. Keywords should be 5-8 keywords.

1. Introduction

We request authors to follow these guidelines and format their manuscripts the same as this document. The easiest way to do this is to download this template and replace its contents with those in your manuscript.

2. Page Dimensions

All material on all pages should fit within an area of A4 (21 x 29.7 cm), 2.8 cm from the top of the page, and ending with 2.4 cm from the bottom. The left and right margins should both be 2.4 cm.

3. Paper Length

Regular paper submissions should be single column and the number of pages is not limited.

4. Main Text

This section provides details for typesetting your manuscript according to the formatting guidelines set for UKH Journal of Social Sciences. Use 12-point Garamond regular font for the typesetting of the main text in the document.
The main text starts at the top of the page and continues in a single-column format. Place an indentation for each paragraph starting from the first in all sections or subsections. There is no space between paragraphs within the text. Add an 12-point space after the text in each section or subsection.

4.1. Default Fonts

Use only Garamond fonts throughout the document. If any special font is required to display the text properly, please mention this during the manuscript submission process.

4.2. Typeset Text

Use a 16-point-bold Garamond font for the paper title. Author’s names (14-point Garamond bold) and affiliations and emails (12-point Garamond regular) are aligned left. Separate addresses for different affiliations.

4.3. Page Numbering / Header and Footer

Do not include headers, footers, or page numbers other than those already set in this manuscript. Page numbers will be modified when publications are assembled.

4.4. Mathematics

Math typesetting can be done manually or by any other system that produces clear math types (Garamond regular 12 pt.). Symbols and shorter expression can be placed within the text, e.g. \( \varepsilon \to 0 \). The more complex expression should be placed in the center of a new line. All equations should be numbered and centered. They should be referred to just like figures and tables, e.g. Equation (1). Unless it is necessary, equation numbers should not have a part to them, e.g. instead of using Equation 1(a) and Equation 1(b). Number them as Equation (1) and Equation (2).

\[ A = \pi r^2 \quad \ldots \ldots \quad (1) \]

5. Figures and Tables/Captions

Place tables/figures/images on the top of each column (see Table 1 and Figure 1). Each figure or table must include a caption set in 10-point Garamond regular font, placed below the figure and top of the table. The caption is centered.

It is highly recommended that figures/images/graphs/diagrams that might have been created in other software, e.g. Excel, AutoCAD, etc., or even the ones that are composed by various graphical components (textbox, arrows, shapes, etc.) of MS Words itself be grouped and converted to PNG (highly preferred) or an appropriate raster image format before including them in the final manuscript to stop the linking of figures back to its sources or to avoid the graphical components scattering over the pages. The “Paste Options” in MS Word can be useful for quick conversion. Use Drawing Canvas when necessary.

Reference to the figure should follow the format (Figure 1). Figure numbering and referencing should be done sequentially, e.g. Figure 1, Figure 2, Table 1, Table 2, etc. Use Figure 1(a), Figure 1(b), etc. for figures with multiple parts.
6. **Sections**

The heading of sections should be in 12-point Garamond bold font and flush left. Sections and subsequent sub-sections should be numbered and flush left in the same manner. Sections numbers are in Roman style.

6.1. **Subsection Level 1**

Use 12-point Garamond bold font for the heading of subsections.

6.1.1. **Sub-subsection Level 2**

Use 12-point Garamond regular font for the heading of subsubsections.

6.1.2. **Sub-subsection Level 2**

6.1.3. **Sub-subsection Level 3**

Use 12-point Garamond regular font for the heading of subsubsections.

**References** (Use 12-point Garamond, Bold)

References should be in APA style and arranged in Alphabetical order. Only the references that are cited in the text should be added to the reference list, and vice versa. Use 10-point Garamond for the references with indentation hanging by 0.5.

**A. For references inside the text, follow the following style:**

**Direct referencing:** Example:

For single-author use: According to Author’s Sir name (Year of publication)

When there are two authors, then use Author A’s Sir name and Author B’s Sir name (Year of publication). Don’t use the symbol “&” for the word “and”.

---

<table>
<thead>
<tr>
<th>Table 1. Table description or name.</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Table header</strong></td>
</tr>
<tr>
<td>Table content</td>
</tr>
<tr>
<td>Table content</td>
</tr>
</tbody>
</table>

---

Figure 1. Figure description or name.
When there are more than two authors, then use Author A’s Sir name et al. (Year of publication). Don’t use Italic letters and don’t add a comma after the dot.

**Indirect referencing; Example:**
For single-author use: The type of oil in Shiakhan oil field is light (Author’s Sir name, Year of Publication).
When there are two authors, then use: …….. (Author A’s Sir name and Author B’s Sir name, Year of publication).
When there are more than 2 authors, then use: …….. (Author’s Sir name et al., Year of Publication). Don’t miss the dot and the comma after et al.

In both cases of Direct and Indirect referencing, when an author has more than one publication that bears the same publication’s date, then add “a” to the year of the publication, Example (Author’s Sir Name, 2019a), and so on. Do not leave space between the year and the used letter.

**B. For the Reference List**

Authors should follow the format as follows:

**For a chapter in a book, use:**
J. K. Author (Year). “Title of a chapter in the book,” In *Title of Published Book*, xth ed. City of Publisher, Country, Abbrev. of Publisher, ch. x, sec. x, xxx-xxx.

**For a book, use:**
J. K. Author (Year). Title of Published Book, xth ed. City of Publisher, Country, Abbrev. of Publisher, followed by space then “pp” number of pages.

**For editors of a book, use:**
Author, J.K. (Ed.), if more than one editor, then use “Eds.” in between parenthesis (Year). [If the book is edited]. Title of Published Book, xth ed. City of Publisher, Country, Abbrev. of Publisher, followed by space then “pp” number of pages.

**For a published paper, use:**

**For a report or a map, use:**

**For a conference paper, use:**

**For postgraduate thesis, use:**

**For Internet data, use:**
J. K. Author (Year). *Title*. [Type of medium]. URL: http://www.thedomainname.org [Accessed Day Month Year]

**Note:**
In those cases, where there are Volume, Issue (No), and page numbers, don’t add the abbreviations of Volume, Issue and page, just use like this: 33(2), 122 – 136.
Add DOI or URL of source wherever available.
